Kwikee™

Sprayer Instructions

ALWAYS DEPRESSURIZE SPRAYER BEFORE OPENING AND REFILLING.

1] Remove the black cap from the air filler valve.

2] Use tip of black cap end to depress valve core until ALL of the air escapes.

3] Loosen and remove the hex filler cap after all the air has been let out of the container.

4] Using a funnel, fill the **Kwikee**™ sprayer 2/3 full (32-oz. / 946 ml. maximum liquid capacity) with release agent or sealing agent. Make sure the liquid you put into the sprayer is **clean and free of foreign particles.**

5] Replace the hex filler cap and tighten with a wrench. **6]** Charge the sprayer with compressed air by holding a standard air chuck on the valve stem of the filler cap. Hold the air chuck on the filler cap until you hear the line pressure equalize with the sprayer.

Working pressure is 80-120 psi. At lease 80 psi is needed to spray the full 32 oz. without a recharge of air. **The maximum pressure should not exceed 200 psi.**

The **Kwikee**™ sprayer is now ready to use.

WARNING: Be Careful When Spraying Flammable Liquids.
Do Not Use Around Flame or Ignition Sources.
Do Not Over-Pressurize. Read Warnings on Back Label.
For Industrial Use Only. Keep Out of the Reach of Children.

WARRANTY - Kwikee Sprayers are guaranteed against defective materials and workmanship onder normal conditions of use and service for 30 days from date of sale to the consumer. The obligation of Smooth-On, Inc. shall be limited to replacing any sprayer which is found by Smooth-On to be defective, provided that a written claim covering such defect is submitted within the warranty period. This warranty shall not apply to defects resulting from accident, alterations, abuse or misues, including the use of solutions other than sealing agents or release agents made by Smooth-On, Inc. and its subsidiaries. **Liability Disclaimer:** This product has been tested to assure conformance to certain quality control standards. However, since the manufacturer has no control over the actual application, no warranty is expressed or implied regarding the results obtained or the precautions that should be taken during use. The user MUST determine the suitability of the products used for the intended purpose as well as any safety precautions that should be taken. User shall assume all risk and liability in connection with the use of this product. Smooth-On shall not be liable under any event for consequential damages of any sort.
