

# Food Safe Materials

The following materials have been tested by an independent laboratory to comply with 21 CFR 177.2600, rubber articles for repeated use subject to the total extractive limits as specified and published in the Code of Federal Regulations.

The following products meet specifications for the 21 CFR 177.2600(e) test for water extractables only and are suitable for **dry food contact and water/ice only**.

## Platinum Silicones

Dragon Skin™ 25 NV

Mold Star™ 40T

## Platinum Silicones

Equinox™ 35 FAST

Equinox™ 38 MEDIUM

Equinox™ 40 SLOW

Smooth-Sil™ 940

Smooth-Sil™ 950

Smooth-Sil™ 960

SORTA-Clear™ 18

SORTA-Clear™ 37

SORTA-Clear™ 40

FDA compliance does not mean FDA approved. To be approved, the user must also comply with all applicable FDA requirements. Compliance with 21 CFR 177.2600 does not authorize use of the compound for the manufacture of baby bottle nipples.
