HYDROFOAM

FLEXIBLE POLYURETHANE INJECTION FOAM

Data Sheet 006

1. PRODUCT NAME

HYDROFOAM

2. MANUFACTURER

POLYGEM, INC. 1105 CAROLINA DRIVE WEST CHICAGO, IL 60185 PHONE: (630)231-5600 FAX: (630) 231-5604 Internet: www.polygem.com

3. PRODUCT DESCRIPTION

HYDROFOAM is an innovative and simple to use hydrophilic polyurethane resin system designed to provide the ultimate solution for crack repair and void grouting applications. In contact with water, HYDROFOAM will expand up to 20 times its original volume creating a permanent, flexible and watertight seal. HYDROFOAM eliminates the need for costly equipment and messy cleanups. HYDROFOAM is packaged in unique 10 fl. oz. caulk-style cartridges that easily dispensed in any standard caulk gun!

Advantages

☐ Very flexible foam seal
TDI and Solvent Free
No mixing or expensive dispensing equipment
Single 10 oz. cartridge fits in ordinary caulk guns
Bonds to most wet or dry surfaces

Uses

For the sealing of cracks and joints that leak or exhibit movement. HYDROFOAM is ideal for use in:

- **Foundation Cracks**
- Fill voids and Rock Pockets
- Pipe Penetrations
- Concrete Tie Holes
- **Pre-Cast Section Seams**
- Floor/Wall Joints

4. APPLICATION INSTRUCTIONS

- 1) Prepare crack by setting injection ports and sealing crack with a fast-setting paste epoxy.
- Remove red cap and cut 1/8" max. off the tip or puncture tip with small diameter nail.
- Put cartridge in caulk gun and place cartridge tip into injection port.
- Slowly dispense resin into injection port using low pressure to ensure maximum foam development. Allow resin/foam to rise into adjacent or next higher Cap filled port and repeat dispensing procedure into the next port until all injection ports
- 5) Re-cap cartridge to preserve any unused resin.

Consult Polygem, Inc. for additional technical instructions for crack repair specifications.

Packaging

HYDROFOAM is available in standard size 10.3 ounce caulk tubes and also in one gallon, and 5 gallon bulk

Shelf Life

Factory sealed containers of this product are guaranteed to be of first quality for min. 6 months.

Limitations

□ Not for	or use as a st	tructural	repair.	□ Do	not	install	when
surface	temperature	is below	v 45°F	(7°C)	or	above	90°F
(32°C.							

☐ High volume water flow will require optional accelerator catalyst to adjust foam expansion rate.
