**Technical Information**

- **Mix Ratio:** 1 Part Warm Water (80° F / 27° C)\* to 1 Part Renew™ Alginate Powder by Volume (or 5 Parts Water to 1 Part Renew Alginate by Weight)

- **Working Time:** 8 Minutes\* *NOTE: Working Time & Cure Time may be reduced by using warmer water.*

- **Cure Time:** 10 Minutes

Cooler water will give a longer Working Time and extend the Cure Time.

---

The Material Safety Data Sheet (MSDS) for this or any Renew Advanced Materials product should be read prior to use and is available upon request from Renew Advanced Materials. All Renew products are safe to use if directions are read and followed carefully. Be careful. Use only with adequate ventilation. Contact with skin and eyes may cause irritation. Flush eyes with soap and water for 15 minutes and seek medical attention. Remove from skin with waterless hand cleaner followed by soap and water.

Important: The information contained in this bulletin is considered accurate. However, no warranty is expressed or implied regarding the accuracy of the data, the results to be obtained from the use thereof, or that any such use will not infringe upon a patent. User shall determine the suitability of the product for the intended application and assume all risk and liability whatsoever in connection therewith.
